Subject: RE: [External] Field work at LCP

Rob,

I hope all is well.

Regarding GW sampling, as we discussed in the November meeting, we were going to submit the SCR for EPA's review. Once EPA had a chance to review, we would then meet to determine if there are, in fact, any additional sampling needs. Do you know when the EPA will be in a position to provide comments? Based on that we can schedule a call.

Prashant,

At this stage, I'm not sure about when we can reschedule our discussion. Will this impact scheduling the field work for OU2? EPA's goal was to provide feedback on the SCR before the groundwater sampling was accomplished. When you get a chance, I would like to discuss with you when we might re-schedule the meeting (likely as a call or skype meeting) and get the field work accomplished.

As an aside is the OU1 work impacted?

Sincerely,
